### **DETAILED ACTION**

1. This Office Action is responsive to the Remarks filed by the applicant on 08/04/2006.

#### ***Response to Remarks/Amendments***

2. Applicant's remarks filed 08/04/2006, have been fully considered and as a result claims 2-11, 13-22, 24-30, are now indicated allowable.

#### **Reasons for Allowance**

3. Claims 2-11, 13-22, 24-30 allowed.
4. The following is an examiner's statement of reasons for allowance: The prior art of record in combination with other claimed limitations neither teaches nor renders obvious a decoder for decoding QAM signal comprising: wherein the at least one QAM signal is capable of being transmitted at a rate of  $t$ , wherein the at least one QAM signal includes at least one in-phase portion modulated by at least one carrier signal at a carrier frequency of  $f_c$ , wherein at least one integrator is configured for integrating the in-phase portion of the at least one QAM signal, and wherein at least one tapped-delay line filter is configured for receiving the integrated in-phase portion of the at least one QAM signal and thereafter outputting a representation of at least one bit of the at least

Art Unit: 2611

one n-bit digital signal, and wherein the number of delay elements of the at least one tapped-delay line filter is based on the number of bits n, the transmission rate t, and the carrier frequency  $f_c$ .

Such limitations as recited in claims 5, 16 and 25 are neither anticipated nor rendered obvious by the prior art of record.

Claims 2-4, 6-11, 13-15, 17-22, 24, 26-30, are allowed by virtue of their dependency to independent claims highlighted above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
